February's Meeting

We will be reviewing the major 2017 NEC Changes over the next few months. These classes have yet to be approved for Contractor CE credits so they will be presented for information only. The class will benefit Inspectors, Designers, Contractors, Estimators, Project managers, Foremen, Apprentices and Helpers, so all are welcome. We will limit the class time to one and a half hours per session so make plans to attend the next few months to get up to speed on the 2017 NEC which went into effect on 1-1-2021. For dinner we will be having a garden salad, grilled hamburgers, hot dogs and sides. As always the American Legion will be preparing and serving the evening meal along with our very own Joe Tyree manning the grill.
