FREE OSHA ALLIANCE WORKSHOP

MACHINE GUARDING & AMPUTATION PREVENTION WORKSHOP

DID YOU KNOW?

OSHA has a new National Emphasis Program to prevent amputations in new industries.

ABOUT

Moving machine parts have the potential to cause severe workplace injuries. Employees must be able to recognize contributing factors.

WHO

Safety professionals, industrial hygienists, front-line managers and all employees who work around stationary equipment should attend this workshop.

FRIDAY, FEBRUARY 14

10AM - 12PM

COST: FREE
